

TS770-D

Roof Louver

TopShield[®] TS770-D Roof Louver, a self-flashing attic exhaust vent designed in a dual slant-back style. This vent combines both functionality and aesthetic appeal. Its bird-proof construction ensures durability, with louvered sides seamlessly connected to the top and securely riveted to the base flashing. The three louvered sides open upward to prevent shingle discoloration, while a weather-tight collar, seamlessly seamed to the base flashing, enhances its weather-resistance. Additionally, a substantial nailing flange facilitates a secure and efficient installation process.

ENHANCED WEATHER PROTECTION

TS770-D FEATURES

- Aluminum screen attached for enhanced protection
- Greater air flow with three louvered sides
- Fits all hip, pitched or gable roofs
- Weathertight seamed collar
- High profile for increased weather protection and circulation
- Prevents roof discoloration
- Bird-proof
- Embossed painted finish for added strength, extended paint life, durability, and blending appearance with shingles
